ABOUT US

Our Vision, Mission and Values

ABOUT **US**

ERAM International is an ISO 17020: 2012 type "A" inspection body that provides Quality Assurance and Quality Control Inspection Services to all leading Oil and Gas, Petrochemical companies in Kingdom of Saudi Arabia and worldwide.

OUR **VISION**

To be a globally preferred Inspection & Certification Body through ethical and sustainable auditing and Inspection activities.

OUR **MISSION**

To promote and maintain professional, ethical and sustainable Inspection & auditing practices globally, committed to the continual improvement of our performance focusing on the delivery of value added services to support the customer and their ever- changing needs.

OUR **VALUES**

ERAM International operates in a fair, honest, open, transparent manner taking responsibility and accountability for our commitments. As a cohesive team, we pride ourselves on building long lasting partnerships with our clients with a focus on:

- a) Customer satisfaction
- b) Reliability
- c) Impartiality, Integrity and the highest ethical standards
- d) Competence
- e) Openness
- f) Continual Improvement
- g) Honesty
- h) Performance with recognition
- i) Responsibility
- j) Commitment

OUR SERVICES

A List of Our Services In Brief

OUR SERVICES

ERAM International is a ASCB accredited ISO 17020: 2012 type "A" inspection body and one of the leading companies providing a variety of quality services effectively for more than ten years.

ERAM International was established with a vision to provide technical support services for major projects executed in the Middle East for industry majors like Saudi Aramco, SABIC, Qatar Petroleum, RAS GAS, Qatar Gas, Kuwait Oil Company, Bahrain Petroleum, ADNCO, PDO etc. Subsequently, ERAM International became involved in the provision of technical inspections, certification, audits and training services for various industries.

ERAM International employs more than 850 specialized personnel in various countries, operating all over Middle East, Europe, Americas and Asia.

Our broad technical capabilities enable us to serve various industries like the Oil and Gas, Chemical and Petrochemical, Power, Construction, Offshore and Pipelines, Railroad, Automotive, Health and Hygiene and IT sector.

INSPECTION SERVICES

We ensure reliable assessment and calculation of risk profile of items in a plant, based on its "active" and "potential" Damage Mechanism, ensuring that the resulting inspection interval for the item is optimized in a safe and cost-effective manner.

CARGO INSPECTION

We ensure that appropriate storage and handling methods are employed during loading to protect your financial interests. We also conduct inspection on special products/products of high value, and sorting of quality products from those with defects.

CERTIFICATION

We assess, certify and register management systems of companies to international standards, national standards, guidelines and codes of practices as appropriate. The benefits of management system certification are endless.

SUPPLIER AUDITS AUDITS

We have the experience and knowledge of auditing and surveying suppliers being considered to fabricate for projects. We have certified auditors using detailed procedures to perform on site assessments necessary to meet the client's needs.

TRAINING

We provide structured training services intended to improve the knowledge and capabilities of individuals and companies.

DETAILED SERVICES

Our Detailed Service Listing

DETAILED SERVICES

INSPECTION SERVICES

We ensure reliable assessment and calculation of risk profile of items in a plant, based on its "active" and "potential" Damage Mechanism, ensuring that the resulting inspection interval for the item is optimized in a safe and cost-effective manner.

The bulk of our inspections activities involve inspection services provided for equipment, machinery, and manufactured items for various processes industries. The services provided include inspections for the following:

MECHANICAL EQUIPMENTS AND COMPONENTS

Pressure Vessels; Heat Exchangers; Columns; Boilers; Tanks; Structural Steel; Fabricated Pipe; Valves; Fittings; Skids, Fiberglass Pipes, Tanks and Vessels; Towers; Castings and Forgings. Pumps; Gears; Generators; Seals; Rotors; Compressors; Fans; Turbines; Engines; Motors etc.

ELECTRICAL AND INSTRUMENTATION

Switchgears; Motor Control Centers; Transformers; Motors; Rectifiers; Control Panels; Current/Voltage regulators; UPS Systems; Cables; Alarm Systems; Various Process Control Systems etc.

COATINGS

Witnessing/surveillance inspections at coating facilities to ensure that all activities related to coating are carried out in accordance with relevant specifications, drawings and manufacturers recommendations.

NONDESTRUCTIVE TESTING

Witnessing/surveillance of supplier or sub-contractor applied tests or examinations performed utilizing relevant NDT equipment including verifying calibration of all equipments in accordance with client requirements.

ON-STREAM, SHUTDOWN, TURN-AROUND PROJECT INSPECTION

We have a team of highly qualified and experienced engineering professionals and technicians who excel in completing various inspections within targets for both on-stream and shutdowns of plants by providing range of International Certified resources such as in API, AWS, ASNT, BGAS, NACE, CSWIP, PCN and etc.

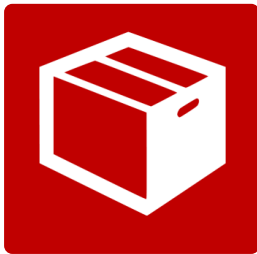

ERAM International's core team of Inspectors are qualified to API 510, API 570, API 653, CSWIP, BGAS/NACE, ASNT, and IRATA.

ASSET INTEGRITY MANAGEMENT

The primary objective of Asset Integrity Management (AIM) is to maintain the asset in a Fitness for Service Assessment condition while extending its remaining life in the most reliable, safe, and cost-effective manner. ERAM International is able to effectively partner with our clients by providing the following services:

- Risk-based Inspections
- Facility Management & Maintenance Management
- Operational Integrity and Condition Assessments
- Mechanical Integrity Management Systems

CARGO INSPECTION

We ensure that appropriate storage and handling methods are employed during loading to protect your financial interests. We also conduct inspection on special products/products of high value, and sorting of quality products from those with defects.

Our cargo inspection services are including but not limited to the below:

PRE-SHIPMENT/PRE-LOADING SURVEYS

Assuring that the cargo in question meets all of the specifications as initially agreed upon by buyer and seller, our pre-shipment inspection (PSI) offer a solution that ensures the cargo leaves and arrives in good order.

CARGO TALLY SERVICES

Our experts can carry out the recounting, inspection and photographing of the goods and, if necessary, shall perform the expert appraisal of damages and professional completion of the corresponding documents.

CERTIFICATION

We assess, certify and register management systems of companies to international standards, national standards, guidelines and codes of practices as appropriate. The benefits of management system certification are endless.

The following are our certification programs that we are offering to support our clients:

QUALITY MANAGEMENT – ISO 9001:2015

Quality Management is all about having effective formalized management systems in place to ensure that products and services are delivered to specification, on-time, and at the agreed cost.

ENVIRONMENTAL MANAGEMENT – ISO 14001:2015

Environmental Management is all about having effective formalized management systems in place to control minimize and monitor a company's environmental impact.

HEALTH AND SAFETY MANAGEMENT – OHSAS 45001:2018

Health & Safety Management is all about having effective formalized management systems in place to identify and control workplace hazards to prevent accidents and harm to all personnel.

FOOD SAFETY MANAGEMENT – ISO 22000:2018

Food Safety Management is all about having effective formalized management systems in place to identify and control food safety hazards to ensure that food quality is maintained.

INFORMATION SECURITY – ISO 27001:2017

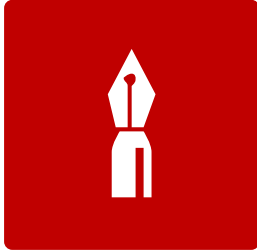

Information security management gives you the freedom to grow, innovate and broaden your customer-base in the knowledge that all your confidential information will remain that way.

ENERGY MANAGEMENT SYSTEMS – ISO 50001

ISO 50001 is a management system that helps you improve the energy performance in your business, and use the energy more efficiently. Thus, the objective of this standard is to cut energy costs while improving business sustainability.

ANTI-BRIBERY MANAGEMENT SYSTEMS – ISO 37001

Eram International offers ISO 37001 anti-bribery management system training and certification that helps your organizations prevent, detect and address bribery toward better ethical business culture.

SUPPLIER AUDITS

We have the experience and knowledge of auditing and surveying suppliers being considered to fabricate for projects. We have certified auditors using detailed procedures to perform on site assessments necessary to meet the client's needs.

Audits / Surveys are conducted by qualified and certified personnel to provide critical information needed by the client to evaluate the suppliers.

ERAM International also offers security audit as a systematic evaluation of the security of a company's information system by measuring how well it conforms to a set of established criteria.

Our range of services:

- System Audits (Quality, Environment, Health & Safety)
- Pre-Award Surveys
- Capability (Suppliers) Audits
- Product Audits
- Performance Audits
- Operational Performance Surveys
- Security Audits

TRAINING

We provide structured training services intended to improve the knowledge and capabilities of individuals and companies.

Our training services are targeted toward quality management, technical, engineering, safety, health, environment, and other professions. Training can be arranged on-site or in local venues to meet client needs.

We offer the following training courses in general:

- Accredited Six Sigma Yellow/Green/Black Belt
- Occupational Health & Safety Awareness/Lead Auditor (ISO 45001)
